

IMO Managed Care – Injury Management Organization, Inc. Looks to Future, Expands National Footprint

After over 29 years servicing clients across the state of Texas, **Injury Management Organization, Inc. (IMO)** is expanding its full suite of Managed Care Services.

As an independently owned and organically grown Managed Care Company, IMO is ready to serve you and be your independent and accountable partner. IMO has expanded its National footprint into the states of Oklahoma, Arkansas, Florida, Illinois, Colorado, New Mexico and Louisiana. The suite of services include Medical Case Management (Telephonic and Field), First Report of Injury with an Early E-Intelemed Triage, Medical Bill Review, Utilization Review, Peer Reviews and Networks - including an IMO TeleConnect Provider Panel. In today's unprecedented economic environment, IMO recognizes that carriers, insurance companies and third party administrators are looking for a new and innovative partner to capture optimum savings coupled with superior customer service.

A Customizable Approach

IMO has extensive experience working with both private and public entities, including Municipalities, Higher Education, Counties, School Districts, Retail, Transportation, and Manufacturing. They service Workers' Compensation and Group Health, Liability and Auto.

By leveraging a customizable approach to managed care, IMO has established proven cost avoidance savings for its clients with premier customer service. They have

achieved superior results with the IMO Med-Select Network®, an organically grown Health Care Network. A top-performer in Texas since 2009, the network currently holds the lowest average cost for lost-time claims, and is among the highest for return-to-work rates and physical functioning scores in the workers' compensation arena.

Looking Forward

To better serve their clients in 2020 and beyond, IMO undertook a complete modernization and redesign of the company's internet presence. Additionally, they launched Lighthouse Resource Group®, an affiliate company that serves clients as a business partner providing a strategic approach to business transformation that drives business results. Also, IMO's proprietary software – SmartCAT® – enables the managed care team to navigate and manage the integration of our service delivery with expected results.
